

Voice-Buffalo Is

A faith-based community organizing project of urban and suburban congregations with a mission to:

- Build the capacity of people to act on their concerns;
- Create a culture of responsibility and accountability for what happens in our communities;
- Strengthen and connect our institutions to their communities; and
- Break down the barriers that are deeply dividing our neighborhoods, city and region.

We accomplish our mission by:

- Training leaders to engage in the public life of the congregation and communities;
- Acting locally to connect people, build public relationships, and raise and address issues in their church neighborhoods;
- Building a regional organization with the capacity to address policies that impact our lives and communities
